#### **II.2.3) Place of performance**

NUTS codes

- UKI - London

#### **II.2.4) Description of the procurement**

The contract is for 140 properties across the borough housing former residents of Grenfell Tower and Walk which require a high level of bespoke service. It is anticipated that this service will be measured on the basis of the customer experience and good data monitoring practices, demonstrating the service meets residents' variety of needs, within a timely manner.

The properties covered are those which have been acquired by the Council since 2017 for resident's needs. As such, they are a mixture of new build properties and street properties. The repairs requirements are varied across the patch and therefore any provider must be confident that they could deliver a consistent repairs service through their supply chain or directly. Due to the relatively small numbers but high profile of residents, we are looking for an operator who can manage, allocate and deliver out of hours requirements for these residents, alongside the repairs service which is offered in core hours. The service focuses on providing an exceptional, bespoke and specialist service to these residents both in and out of hours, with a need to deliver the best repairs possible for the clients.

#### **II.2.14) Additional information**

The Council is ideally seeking to engage with SMEs with relevant skills and experience to discuss what this service may look like. A market engagement activity will be organised after the PIN notice period has expired. The session will provide an opportunity to explore any interest in bidding for this project, review key aspects of the service and refine our approach and the specification.

#### **II.3) Estimated date of publication of contract notice**

6 December 2021
