Smart Infrastructure Pilot Programme

Reference number

NAC/5182

II.1.2) Main CPV code

- 44212226 - Electricity poles

II.1.3) Type of contract

Supplies

II.1.4) Short description

In a landmark initiative set to propel North Ayrshire into the future of digital infrastructure, North Ayrshire Council (“NAC”) has embarked on a Smart Infrastructure Pilot Programme (“SIPP”). This pioneering project is driven by a grant of approximately GBP 242K from the Department for Science Innovation and Technology (“DSIT”) as part of a 'Smart Infrastructure' Pilot. The grant will support the rollout of innovative PAS 191:2023 capable innovative smart multi-purpose poles that will redefine NAC’s urban landscape. NAC will supplement the grant by 20K for operation and maintenance, taking the overall project value to GBP 262,765.

The SIPP is a pivotal component of DSITs Advanced Wireless Innovation Strategy. The strategy aims to be a catalyst for economic growth, connectivity enhancement, and the promotion of sustainable practices. This strategic investment will enable the procurement of state-of-the-art multi-purpose poles, in place of traditional single-use street furniture for a more versatile and sustainable infrastructure that supports a multiple use case ecosystem.

Central to this endeavour is the Maritime Mile, the route from the Irvine train station to Irvine Beach Park, where the aim is to transform the area into a national waterfront destination. The Maritime Mile is one component of the ‘Great Harbour’ – a transformation of the waterfront in Irvine, North Ayrshire. The Great Harbour is a key component of the GBP 251m Ayrshire Growth Deal and is one of the most ambitious and transformational regeneration tourism proposals for the region. This significant investment is intended to regenerate the

waterfront, turning it into a hub of transformational tourism and an exemplar of modern Smart Connected Places.

Structured around key use cases such as CCTV/security, movement detection, waste detection, and the enhancement of visitor and business connectivity, the project is also poised to consider the integration of EV charging points and augmented reality experiences in the future. NAC's forward-thinking approach paints a future where the power of advanced wireless connectivity smartens public services and puts Smart Connected Places at the core of urban development.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £261,784.25

II.2) Description

II.2.2) Additional CPV code(s)

- 45233293 - Installation of street furniture
- 31000000 - Electrical machinery, apparatus, equipment and consumables; lighting
- 34928500 - Street-lighting equipment
- 34928510 - Street-lighting columns

II.2.3) Place of performance

NUTS codes

- UKM93 - East Ayrshire and North Ayrshire mainland

Main site or place of performance

Irvine - Maritime Mile, the route from the Irvine train station to Irvine Beach Park.

II.2.4) Description of the procurement

NAC invites tenders for the 'Smart Infrastructure Pilot Programme' as detailed in the

Invitation to Tender (“ITT”). The resultant contract is anticipated to commence 19th August 2024 until 31st October 2025 (this includes an initial installation period and an additional 12 month operation and maintenance period). Thereafter, there will be an option to extend by up to 4 years. Extensions will be at the sole discretion of NAC and subject to satisfactory performance and funding.

The contract will be let on NAC’s standard conditions of contract for the purchase of goods and related services.

II.2.5) Award criteria

Quality criterion - Name: 1. Approach to meeting the technical specification / Weighting: 20

Quality criterion - Name: 2. Approach to meeting the enabling works specifications for power, connectivity, and foundations / Weighting: 15

Quality criterion - Name: 3. Approach to meeting the operation, maintenance and service management requirements / Weighting: 7.5

Quality criterion - Name: 4. Approach to project management / Weighting: 5

Quality criterion - Name: Approach to resourcing / project team / Weighting: 2.5

Price - Weighting: 50

II.2.11) Information about options

Options: Yes

Description of options

NAC may consider use of Regulation 33(8) for additional operational and maintenance requirements on contract expiry, as outlined in the procurement documents.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure
