VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the

contract):

The Client requires an extension to the FlexCHOICE Waters service support plan on both systems for a further five years. This will ensure that service cover is in place for both instruments for their projected whole-lifespan of 10-years. the revised contract dates and value for each lot are: Lot 1 (from Sept 2023 – 2028): £147,320.84 and Lot 2 (from April 2024 – March 2029): £153,870.64

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

The modification will ensure that service cover is in place for both instruments for their projected whole-lifespan of 10-years. A change of supplier would not be practical as Waters are the only manufacturer who can provide service plans on the TQ-XS systems which encompass the scale of the needs outlined above – with particular emphasis placed on software and firmware support.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £620,145.24

Total contract value after the modifications

Value excluding VAT: £911,595.24
