Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

No reasonable alternative exists for this highly specialised procurement as no other products or services are available that will digitally support the new aligned cancer pathway. This is a bespoke system built to support genomics medicines using a combination of technical solutions, this combination is unique and not available commercially. The absence of competition is not a result of the artificial narrowing of the parameters of the procurement. BHSCT will test the market during the timeframe of this contract for new technical digital developments in this area.
