II.2.4) Description of the procurement

The Phone and Ride service provides a demand responsive bus service to enable communities and individuals with no or limited access to mainstream public transport provision to access employment, health, education, shopping and leisure opportunities.

Whilst the conventional bus network provides extensive coverage throughout the Borough, there are some journeys which cannot be made, either due to the location of the origin/destination points or at the time at which an individual wishes to travel.

Furthermore, the service is often recommended as a solution to support individuals with personal circumstances such as mobility impairments, who may require a tailored service using modified

vehicles, who face barriers to accessing the existing conventional bus network.

There is a desire for the Authority to improve the targeting of the service for those passengers who are in greatest need of the phone and ride service.
