II.1.4) Short description

The Lancaster West Estate in North Kensington is undergoing a comprehensive refurbishment of its social housing and landscaping with a deep energy retrofit to improve its energy performance.

The Notting Dale Heat Network is to be delivered and operated by a Special Purpose Vehicle (SPV) wholly owned by the Council, Notting Dale Heat Network Ltd. It is RBKC's ambition that it will be the most reliable and proactively maintained heat network in the UK.

The initial phase of the Project is to serve the Lancaster West Estate (LWE) for which the intended heat users include around 800 residential units, a school, a large Council-owned leisure centre and business units for SMEs (Baseline Studios). This project forms the second part of the Procurement strategy to support the Heat Network delivery.

The Authority is conducting procurement for the design and construction of the Tertiary Networks and all internal (above ground) sections of the Secondary Networks within the Notting Dale Heat Network.

II.2.4) Description of the procurement

The Lancaster West Estate in North Kensington is undergoing a comprehensive refurbishment of its social housing and landscaping with a deep energy retrofit to improve its energy performance.

The Notting Dale Heat Network is to be delivered and operated by a Special Purpose Vehicle (SPV) wholly owned by the Council, Notting Dale Heat Network Ltd. It is RBKC's ambition that it will be the most reliable and proactively maintained heat network in the UK.

The initial phase of the Project is to serve the Lancaster West Estate (LWE) for which the intended heat users include around 800 residential units, a school, a large Council-owned leisure centre and business units for SMEs (Baseline Studios). This project forms the second part of the Procurement strategy to support the Heat Network delivery.

The Authority is conducting procurement for the design and construction of the Tertiary Networks and all internal (above ground) sections of the Secondary Networks within the Notting Dale Heat Network.

The D&B works for this contract package will comprise:

1. Installation of the above-ground pipework that forms the Secondary Networks serving residential blocks, including the heat interface unit (HIUs) that serve each flat, together

with strip out and disposal as appropriate of existing communal heating supply systems.

2. Installation of the Tertiary Networks serving each flat comprising: thermostatic controls, radiators, valves and small diameter distribution pipework; and strip out and disposal of the existing heating systems.

3. On completion of the above works to each block, a permanent connection to the Heat Network is required as soon as the latter has become operational, and undertake test & commissioning.

The D&B Contract period is for 4 years from 9 June 2023 to 9 June 2027. Flexibility in delivering these works within this 4-year period is key, with at least 4 months' notice of work commencement to be given to the D&B Contractor.

Suppliers will be required to express interest in this opportunity on Capital Esourcing. If not already registered on Capital Esourcing, please register at the following link:
