Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The Authority needed to secure additional flu vaccines to supplement business as usual stocks so that it was in a position of being ready to co-administer the Covid-19 booster and flu vaccine simultaneously as this will result in a greater uptake of the flu vaccine to a wider cohort of the population. However the high global demand for flu vaccines and the limited global stocks of these vaccinations gave rise to an extremely urgent need for the Authority to purchase additional flu vaccines for the 2021/22 flu season to maintain security of supply to immunise the population as required and safeguard public health. It was imperative in the face of high global demand, that the Authority moved quickly to secure supply and as such there was insufficient time to comply with the standard Open Procedure time scales for this procurement. Accordingly, the Authority used the negotiated procedure without prior publication – Regulation 32(2)(c) – Extreme Urgency Route (i.e. direct award) permitted under the Public Contract Regulations 2015 (as amended) to conduct this procurement
