The initial aim of the service is for an experienced behaviour change and children's weight management team to assess and support children and young people, and their families, with behaviour changes to achieve a healthier weight. The service will ultimately form part of an integrated weight management offer, which will comprise a range of activities and support including, for example, cooking skills, parenting support, peer support etc.

Our intention is to work in partnership with communities, adopting an iterative learning process that enables the gradual transfer of resources allowing them to play an incremental role in the provision of weight management support to their residents. We envisage that significant elements of this service will be developed over time, and we will therefore be writing a developmental service specification.

We advise all interested contractors to read the entire ITT and all documents referenced or linked to within the ITT carefully, to inform themselves about the opportunity and whether they would be interested in submitting a response.
