Scope

Description

Stourport Bridge, Worcestershire is a grade II listed structure. Attached to it and adjacent to it are a number of streetlights, all of which are classed as Grade II listed. These were originally installed in 1998 and are bespoke. All of these lanterns have failed and have been removed for safety reasons. Inspection revealed they are beyond repair or refurbishment. WCC has been granted listed building consent to replace the lanterns like for like, from the original manufacturer (William Suggs), albeit with upgraded optics to reflect the latest LED technology
