### **Scope**

### **Description**

UKRI-STFC wish to establish a framework agreement to provide professional services to enable the Business-as-Usual capital delivery programme for STFC. To complete the works for the Client safely for all those involved in accordance with the Scope, Contract Programme and within the agreed total of the Prices. Key objectives: Reduction in procurement and on boarding timescales in order to enable project delivery in line with project constraints; Streamline the process of engagement, creating an agile framework; Maximise quality of service and delivery; Consistency of terms.

Lot 1 Project & Programme Management

Lot 2 Cost Management/Quantity Surveying

Lot 3 Lead Designer BSA PD & CDM PD

Lot 4 Architectural

Lot 5 Civil and Structural

Lot 6 Mechanical, Electrical and Public Health

Lot 7 Sustainability and Carbon

Lot 8 NEC Supervisor

There will be a maximum of 3 suppliers appointed per Lot, ranked in the order of their final submission scores. Call offs shall be determined by the process stated in the tender document (all of which is held in the Delta eSourcing Portal. Suppliers may bid for any number of Lots. Please note that there is no guaranteed spend or volume of orders against each Lot.

Bidders should complete and submit a separate submission per Lot they wish to apply for. The specific Tenderbox link is stated in the following Lot descriptions.

A PCR 2015 PIN was previously published and pre-market engagement was undertaken in 2024 (<https://www.find-tender.service.gov.uk/Notice/037886-2024?>)

- Possible extension to 4 August 2029
- 4 years, 1 day

Description of possible extension:

an optional 3rd and 4th year, released individually.

### **CPV classifications**

- 71310000 - Consultative engineering and construction services
- 

## **Lot 4. Lot 4 Architectural**

## Description

Together with the Lead Designer, provide input and agree to the project's BIM execution plan and clash detection strategy. As a minimum: Produce (2D/3D) data models within the specified BIM/authoring software as agreed with the project team

Utilise the PM instructed central data repository eg. Common Data Environment (CDE) or SharePoint website for the sharing of models, drawings, specifications and key project information.

Conduct regular clash detection workshops, in accordance with the agreed clash detection strategy, every 2 to 4 weeks (to be agreed with the client), and providing reports to the client demonstrating resolution.

Each consultant must carry out their own clash detection of their design against other consultants' models, to the same frequency.

Major clashes need to be highlighted to the client to discuss for changes.

For radiation designated projects, full coordination of penetrations within these zones must be coordinated with the client team, and the client's radiation protection advisor.

Client is to receive PDF and .dwg files of all drawings upon completion of each RIBA work stage. The .dwg files are to be provided (or exported if necessary) with drawing layers formatted in compliance with ISO 13567 (as noted in ISO 19650-2) and are to be fully compatible with AutoCAD.

Lot 7 - <https://ukri.delta-esourcing.com/respond/TUPUQ57X95>

Lot 8 - <https://ukri.delta-esourcing.com/respond/7H56C4T248>

### **Lot value (estimated)**

- £1,425,000 including VAT

### **Contract dates (estimated)**

- 4 August 2025 to 4 August 2027
- Possible extension to 4 August 2029
- 4 years, 1 day

Description of possible extension:

an optional 3rd and 4th year, released individually.

### **CPV classifications**

- 71210000 - Advisory architectural services
- 

## **Lot 5. Lot 5 Civil and Structural**

### **Description**

The Structural and Civil Engineer along with the Lead Designer, the Project Manager, Client and their representatives, other consultants and all stakeholders will work closely together to foster a highly collaborative culture. The culture will embody the principles of mutual trust

and co-operation with an overall aim of delivering outcomes specified in the Project Brief and consequently a successful project on time and to budget.

Assist with the creation and maintenance of relevant project tools, project directory, responsibilities matrices, risk registers, project execution plan, stakeholder mapping, change control procedures, master project programme etc.

Assist with the development of a phasing strategy, if required.

Provide cashflow/ draw down schedules for all RIBA Stages/month end against the agreed programme and agree with the Project Manager.

Where the Client has indicated the possibility of a change to the agreed brief during the design phase, inform the Client of the cost and programme implications and obtain the Client's instructions. Carry out any redesign work as instructed by the Project Manager.

With the other members of the Project Team, consider the most suitable options for the procurement of the Works, make recommendations to the Client.

With the other consultants, advise the Project Manager of the cost and programme effects of any subsequent design changes.

- 4 August 2025 to 4 August 2027
- Possible extension to 4 August 2029
- 4 years, 1 day

Description of possible extension:

an optional 3rd and 4th year, released individually.

### **CPV classifications**

- 71311100 - Civil engineering support services

### **Contract locations**

- UKJ14 - Oxfordshire
- 

## **Lot 6. Lot 6 Mechanical, Electrical and Public Health**

### **Description**

The MEPH Consultant shall provide a monthly progress and status report throughout all

stages. As a minimum this will include progress, information required, decisions taken, documentation reviewed, documentation issued.

The MEPH consultant along with the Lead Consultant, the Project Manager, Client and their representatives, other consultants and all stakeholders will work closely together to foster a highly collaborative culture. The culture will embody the principles of mutual trust and co-operation with an overall aim of delivering outcomes specified in the 'Strategic Outline Case' and consequently a successful project on time and to budget.

Comply with and maintain project management procedures, hierarchy of responsibility and lines of communication for the exchange of information between the Client and respective Consultants, Contractor, sub-contractors, and others concerned in the project to allow them to work closely as a team. This will include producing or inputting into common documentations maintained by the Project Manager such as risk registers, CDM compliance trackers, Building Regulations trackers, RFIs, Early warnings and any other trackers deemed necessary to manage the projects design, compliance and risks.

Participate in the operation of an Early Warning system whereby the Project Manager shall notify all others as soon as the Project Manager is aware of a matter adversely affecting the Project or its own performance.

- Possible extension to 4 August 2029
- 4 years, 1 day

Description of possible extension:

optional 3rd and 4th year, released individually.

## **CPV classifications**

- 71313400 - Environmental impact assessment for construction

## **Contract locations**

- UKJ14 - Oxfordshire
- 

## **Lot 8. Lot 8 NEC Supervisor**

### **Description**

Where internal STFC Clerk of Works (CoW) support is in place: Lead inspections and reporting, with CoW attending for additional discipline or Estates assurance.

Coordinate sharing of witnessing schedules and site access logistics.

Agree a unified defects list at handover and during the defect correction period.

Ensure that all inspection activities are clearly distinguished by role (e.g. NEC vs. Estates client duties) and follow contract communication protocols.

CoW observations may support Supervisor reporting but do not replace the formal inspection or notification procedures defined under the NEC contract.

Provide timely updates to the Project Manager to ensure the health of the quality on the project is clearly understood. Ensure this is reported to the Client by contributing to the monthly progress meeting reports.
