Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- No tenders or no suitable tenders/requests to participate in response to open procedure

Explanation:

The Contracting Authority recently advertised a competition on eTendersNI in February 2023 seeking contractors to provide Response Maintenance and Improvement Works to various geographic areas (via 4 Lots) in the South Region using Regulation 27 (the Open Procedure). No suitable tenders, no requests to participate or no suitable requests to participate were submitted in response to the call for competition in relation to the South and South West area. The Contracting Authority fully complied with all of its obligations under the Regulations including putting the contract opportunity out to the open market. That process did not render a result for 2 of the 4 lots advertised - the South and South West areas. Notwithstanding this, the works/services required under these lots are of fundamental importance to the NIHE for it to comply with its obligations as a statutory landlord. It is not an option for the Contracting Authority to not enter into contract with an Economic Operator to provide these works. After careful consideration, the Contracting Authority opted complete a process using Regulation 32, as it was entitled to, for the purposes of progressing with an award of the contracts.
