**II.1) Scope of the procurement**

**II.1.1) Title**

UKRI-3142 EO DataHub Platform Software Development and Operations

Reference number

UKRI-3142

**II.1.2) Main CPV code**

- 48000000 - Software package and information systems

**II.1.3) Type of contract**

Supplies

**II.1.4) Short description**

The EO DataHub (EODH) programme has been instigated to address challenges around effective exploitation of Earth Observation Data. It represents a first phase of a national asset, supported by the government and specified with the Department of Science, Innovation and Technology (DSIT) alongside NERC. The programme is a pathfinder project led by the National Centre for Earth Observation and a partnership of public sector bodies. Its role is to: a) serve the UK national interest; b) offer all UK users a step-change in data access and quality from commercial to government actionees to researchers and students; c) mitigate and transition the Copernicus-related data activities to a UK-orientated model; d) provide a delivery approach which enables a much more rigorous, evidence-led legacy beyond the project - articulating UK capability, showcasing UK datasets, evidenced costs and user-specified sustainability needs.
