- 50710000 - Repair and maintenance services of electrical and mechanical building installations
- 45310000 - Electrical installation work
- 45330000 - Plumbing and sanitary works

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement at the time of conclusion of the contract:

Extension to Frameworks Scotland 3 – Principal Supply Chain Partner framework for a duration up to a maximum of 24 months.

A VEAT notification was published previously with a 10 day standstill period introduced by the Authority.

The extension is required due to the current uncertainty around capital funding within NHSScotland which has continued through 2024/2025. With a number of projects already paused or cancelled, the future pipeline beyond the one-year Scottish Government

Budget in December 2024 will not be known. Therefore, with such future pipeline uncertainty, it is not possible to go to the market to procure a replacement for Frameworks Scotland 3 at this time as the arrangement may not support delivery of the type / scale / complexity of projects to be delivered. The procurement strategy for the successor arrangement is in development, however at present the strategy is being developed on the basis of the future pipeline scenarios. It is anticipated, that by extending Frameworks Scotland 3 by up to a maximum period for 24 months, this will enable greater clarity around future pipeline and service needs. This should enable the future project delivery model and associated future procurement to be able to deliver the future NHSScotland Capital Programme. Should the current position change in the short term, then the procurement of the successor arrangement will commence. The new successor arrangement will be used for capital project delivery immediately following award which may be prior to expiry of the proposed extension to Frameworks Scotland 3.

Due to the cancellation and pausing of projects over the last 9-12 months, combined with the reduction in activity during the pandemic between 2020-2022, the anticipated spend through Frameworks Scotland 3 has been significantly below the stated contract value within the published Contract Notice. Therefore any future call-off from the framework during the 24-month extension period, should not exceed the original value in the Contract Notice. Furthermore, it is anticipated that the volume of activity will be limited by the current capital constraints.

The Framework extension will end on 05/11/2027 or sooner if a successor arrangement is in place before that date.

II.2.7) Duration of the contract, framework agreement, dynamic purchasing system or concession

Duration in months

24

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

VII.1.3) Place of performance

NUTS code

- UKM - Scotland

VII.1.4) Description of the procurement:

The extension is required due to the current uncertainty around capital funding within NHSScotland which has continued through 2024.

With a number of projects already paused or cancelled, the future pipeline beyond the one-year Scottish Government Budget in December 2024 will not be known. Therefore, with such future pipeline uncertainty, it is not possible to go to the market to procure a replacement for Frameworks Scotland 3 at this time as the arrangement may not support delivery of the type / scale / complexity of projects to be delivered.

The procurement strategy for the successor arrangement is in development, however at present the strategy is being developed on the basis of the future pipeline scenarios. It is anticipated, that by extending Frameworks Scotland 3 by up to a maximum period for 24 months, this will enable greater clarity around future pipeline and service needs. This should enable the future project delivery model and associated future procurement to be able to deliver the future NHSScotland Capital Programme. Should the current position change in the short term, then the procurement of the successor arrangement will commence. The new successor arrangement will be used for capital project delivery immediately following award which may be prior to expiry of the proposed extension to Frameworks Scotland 3.

Due to the cancellation and pausing of projects over the last 9-12 months, combined with the reduction in activity during the pandemic between 2020-2022, the anticipated spend through Frameworks Scotland 3 has been significantly below the stated contract value within the published Contract Notice. Therefore any future call-off from the framework during the 24-month extension period, should not exceed the

original value in the Contract Notice. Furthermore, it is anticipated that the volume of activity will be limited by the current capital constraints.

The justification for the framework extension shall be on the basis of Regulation 72 (1) (c).

This notice is intended to notify the market of the intention to issue a modification for the contract under Regulation 72 (1) (c).

The date in section V.2.1 is the date of award of the original Framework Agreement. The Modification of the Framework Agreement will now be entered following the previously issued VEAT notice.

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Extension to Frameworks Scotland 3 – Principal Supply Chain Partner framework for a duration up to a maximum of 24 months.

The value referred to in this notice refers to the initial value of the original framework procurement which is not anticipated to be exceeded during the extension period.

Should the current position change in the short term, then the procurement of the successor arrangement will commence. The new successor arrangement will be used for capital project delivery immediately following award which may be prior to expiry of the proposed extension to Frameworks Scotland 3.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The extension is required due to the current uncertainty around capital funding. With a number of projects already paused or cancelled, the future pipeline beyond the 1 year Scottish Government Budget not be known. With such future pipeline uncertainty, it is not possible to go to the market to procure a replacement for FS3 at this time.

The procurement strategy for the successor arrangement is in development. Due to the cancellation and pausing of projects, combined with the reduction in activity during the pandemic between 2020-2022, the anticipated spend through FS3 has been significantly below the stated contract value within the published Contract Notice. Any future call-off from the framework during the 24-month extension period, should not exceed the original value in the Contract Notice. Furthermore, it is anticipated that the volume of activity will be limited by the current capital constraints.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £650,000,000

Total contract value after the modifications

Value excluding VAT: £650,000,000
