Tenders or requests to participate must be submitted to the above-mentioned address

# I.4) Type of the contracting authority

Body governed by public law

## I.5) Main activity

Education

# **Section II: Object**

## II.1) Scope of the procurement

#### II.1.1) Title

LUV01122 The supply, installation, commissioning, training and maintenance of a highplex combined automated tissue section staining and imaging system with associated analysis software.

Reference number

LUV01122

#### II.1.2) Main CPV code

• 38434540 - Biomedical equipment

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

The University of Leicester wishes to procure a combined automated tissue staining and imaging platform (High-plex tissue imaging platform – HPTIP), with an associated analysis software package for the rapid, non-destructive high-plex staining, imaging and analysis of research samples including human and mouse formalin fixed paraffin embedded tissue sections.

The system MUST be supplied as a single package (and single invoice) containing the instrument/hardware, software, installation, commissioning and training.

Award of contract is subject to:

- 1) Provision of grant funding to the University via the MRC medium equipment award 2022 (a decision on which is not expected before the end of October 2022); and
- 2) Agreement by the successful supplier that the contract will be concluded and paid for by 31st of March 2022 (after which the grant expires)

#### II.1.5) Estimated total value

Value excluding VAT: £405,806

#### II.1.6) Information about lots

This contract is divided into lots: No

#### II.2) Description

#### II.2.3) Place of performance

**NUTS** codes

• UKF21 - Leicester

Main site or place of performance

Leicester

#### II.2.4) Description of the procurement

The Leicester Cancer Research Centre (LCRC) and the University of Leicester Advanced Imaging Facility (AIF) wishes to procure a combined automated tissue staining and imaging platform (High-plex tissue imaging platform – HPTIP) with associated analysis software package for the rapid, non-destructive high-plex staining, imaging and analysis of research samples including human and mouse formalin fixed paraffin embedded tissue sections and cryo sections. The AIF presently houses a low-plex whole slide scanning system to image whole stained tissue sections capable of analysing up to 8 biomarkers on a single section. Procurement of the new system is intended to both increase capacity of this system by providing a new imaging platform and to improve capability by allowing the simultaneous detection of significantly more markers on a single slide than our capabilities currently allow. This will be a multi-user piece of equipment which will be used by multiple groups across the College of Life Sciences

The system MUST be supplied as a single package (and single invoice) containing the instrument/hardware, software, installation, commissioning, training and maintenance.

The University proposes awarding (subject to successful grant funding via the MRC medium equipment award 2022) a contract for a suitable device by carrying out an open tender exercise under the Public Contract Regulations.

#### II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

#### 1 December 2022

End date

31 March 2023

This contract is subject to renewal

No

#### II.2.10) Information about variants

Variants will be accepted: No

#### II.2.11) Information about options

Options: No

#### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

# Section III. Legal, economic, financial and technical information

# III.1) Conditions for participation

#### III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

#### III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

# Section IV. Procedure

## **IV.1) Description**

#### IV.1.1) Type of procedure

Open procedure

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

# IV.2) Administrative information

#### IV.2.2) Time limit for receipt of tenders or requests to participate

Date

4 November 2022

Local time

12:00pm

## IV.2.4) Languages in which tenders or requests to participate may be submitted

English

#### IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 3 (from the date stated for receipt of tender)

#### IV.2.7) Conditions for opening of tenders

Date

4 November 2022

Local time

12:00pm

# **Section VI. Complementary information**

# VI.1) Information about recurrence

This is a recurrent procurement: No

# VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

## VI.3) Additional information
