Scope

Description

Network Rail is issuing this preliminary market engagement notice to better understand the current capabilities of the supply market for building services across Eastern Region.

Currently, the Eastern Region uses various routes to market (including separate frameworks) to deliver Building Services, Fixed Depot Plant, and another for mechanical and electrical works at Kings Cross and St Pancras (Platforms A and B). Network Rail proposes consolidating these frameworks to streamline operations and eliminate duplication in delivering these services across the region.

The proposed framework scope requirements are to provide mechanical and electrical (M&E) maintenance at locations throughout the Eastern Region that include: Supply Chain Operation Buildings, Maintenance Delivery Units(MDUs), Signal Boxes(SBs), Stations, Kings Cross Station, St Pancras Lower Level Platforms A and B, Light Maintenance Depots (LMDs) specialist train servicing plant and equipment.
