II.2.4) Description of the procurement

Prior to the award of these contracts, the current provider (ESS) had a contract with the

local authority under which it provided a perpetual licence to the local authority for the purpose of providing SIMS to the schools in the local authority's area, with associated support services.

ESS has now served notice to terminate that contract and requires that, in order to continue provision of SIMS, individual schools must enter into direct contracts with ESS to receive SIMS as software as a service.

In order to bring about the transition, the local authority will enter into a Facilitation Agreement ("FA") with ESS under which nothing of value is received by ESS and no material services are provided to the local authority; it is purely an administrative arrangement to effect the transition. Each school in the local authority's area will enter into a School Contract ("SC") with ESS for the direct provision of SIMS as software as a service, at substantially the same cost as before.

The highest value SC is 36,233.10 GBP and the lowest value SC is 378.48 GBP.

The schools in the local authority's area whose governing bodies will enter into contracts with ESS are as follows:

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed

below

- The procurement falls outside the scope of application of the regulations

Explanation:

This contract award notice is pursuant to Reg. 93(2), (3) and (4) of the PCR 2015. It is published on a voluntary basis and without prejudice to the LAs and governing body of each school's position that no prior publication of a contract notice and no competitive tender exercise was required in respect of the Facilitation Agreement (FA) and the individual Schools Contracts (SC). Neither the LA nor the governing body of the schools listed above accepts that the FA and SCs are within the scope of application of Part 2 of the PCR 2015 (as amended). The FA has no value but simply puts in place a mechanism to manage the transition of contracts from LAs to schools. It is therefore below the threshold set out in Reg. 5 (as reviewed pursuant to Reg. 5A) of the 2015 Regulations and Part 2 of the 2015 Regulations does not apply. The governing body of each school is a separate contracting authority and each SC is a separate contract. Due to the value each contract being below the threshold set out in Reg. 5 (as reviewed pursuant to Reg. 5A) of the 2015 Regulations and Part 2 of the 2015 Regulations does not apply. Neither the FA nor the SCs are subject to a requirement to carry out prior publication of a contract notice and any form of competitive tender, as the services can only be provided by one supplier (ESS), as competition is absent for technical reasons pursuant to Reg. 32(2)(b)(ii) of the 2015 Regulations. This is because most schools in the local authority's area use ESS' SIMS product. It would take a minimum of 6 weeks to transition from ESS' product to another, including implementation, testing, training and migration of data. To avoid serious disruption to school's functions the transition has to take place over the long summer holidays. ESS served 90 days' notice to terminate current contracts Christmas 2021. It would not be possible in the timescales imposed by ESS, for schools to tender and purchase an alternative product and transition to it without suffering serious disruption to essential services which would affect the ability of schools to continue to function and may require schools to close. Neither the FA nor the SCs are subject to a requirement to carry out prior publication of a contract notice and/or any form of competitive tender, because of urgency pursuant to Reg. 32(2)(c) of the 2015 Regulations. The provision of an information management system is essential and a school cannot function without it.
