Supply of Installation, test, and commissioning of SURF Lab Clean Room

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

Air flow must be balanced across the original installation and the new extension. Both units must provide clean, laminar air flow to the projects they support. Using A.N. Other supplier risks the creation of turbulent flow in the existing facility as the new installer would not have Design Authority responsibility for the existing cleanroom. Creating a facility that has shared resources (air handling units, electrical distribution systems and, most importantly, air management systems). We cannot create a facility where we have to consult two DAs before taking any action to change system parameters.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
