To complete full hardware refresh of main operating IT equipment (Non-Stop Technology), including software, licences, maintenance and support.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

This contract is for the supply of hardware equipment refresh and renewal of licence, maintenance and support of the non-stop technology which is critical to the day-to-day operations of The Force. The current equipment installed by HPE has very reduced support due to the age and will no longer be supported from January 2024. Continuing to use this technology is a high risk to the organisation.

Due to the technical characteristics of this equipment, and the reliance of this system against numerous systems and processes within The Force, a change in supply of different technology from another provider would result in incompatibility or disproportionate technical difficulties in operation and maintenance which would severely impact on our ability to deliver our services to the public. To ensure business continuity and security with our IT infrastructure, a direct award to HPE for the replacement of the current hardware to newer supported technology is required.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2023/S 000-021480](#)

Section V. Award of contract
