BLC0218 Crypto Capabilities: Crypto Storage and Realisation Framework

BLUELIGHT COMMERCIAL LIMITED

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-028154

Procurement identifier (OCID): ocds-h6vhtk-052812 ([view related notices](#))

Published 28 May 2025, 2:49pm

Scope

Description

BlueLight Commercial (BLC) are delivering a new national framework agreement on behalf of the Home Office to provide a secure crypto storage and services. This framework will support the delivery of the Economic Crime Plan 2 through provision of secure storage of crypto assets during legal proceedings and ensuring assets can be returned to owners, returned to victims or sold.

UK law enforcement and government departments and agencies are seeing an increase in the use of cryptocurrencies for illicit purposes. This includes to facilitate the commission of a crime, launder the proceeds of crime, or crypto assets being obtained through the commission of crime as a benefit. As with all other areas of criminal investigation, these Assets can be seized under various legislative powers including the Proceeds of Crime Act 2002, as amended (POCA), the Police and Criminal Evidence Act 1984 (PACE) and the Economic Crime and Corporate Transparency Act 2023.

This is an exciting opportunity to provide a centralised, single supplier framework agreement across UK law enforcement and government for a full end-to-end Software-as-a-Service

(SaaS) based custody and trading service alongside support services including training.

The supplier must be able to store and manage a wide range of Cryptocurrency and also enable the purchase of a variety of crypto assets.

The average time between seizure of assets and conclusion of the legal proceedings (realisation) is within 1 year, for more complex cases can be 3 to 4 years.

The successful framework supplier will be paid on a commission-only model based on the asset value at the time of realisation.

Note the duration of the framework will be 4 years in the first instance with after such time the Authority may extend the term of the Framework by any number of defined periods, (each period a minimum of 1 year), provided that the total duration of the Framework Term does not exceed eight (8) years. The total estimated framework value is between £800,000 and £40,000,000 (ex VAT) and includes all extensions (up to 8 years).

Justification for not publishing a preliminary market engagement notice

The Authority has carried out preliminary market engagement. A Prior Information Notice (PIN) was published under the Public Contracts 2015 on the Find a Tender

Commercial tool

Establishes a framework

Total value (estimated)

- £40,000,000 excluding VAT
- £48,000,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 13 October 2025 to 13 October 2029
- Possible extension to 13 October 2033
- 8 years, 1 day

Description of possible extension:

The initial Framework period will be for four (4) years, after such time the Authority may extend the term of the Framework by any number of defined periods, (each period a minimum of 1 year), provided that the total duration of the Framework Term does not exceed eight (8) years. The framework duration is longer than 4 years because assets may be held by the supplier for longer than 4 years.

Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

Stage 1-The Participation Stage consists of the following: This is a series of Pass/Fail questions relating to the requirements of the procurement. Bidders are required to sign a non-disclosure agreement at this stage. All bidders that pass all Conditions of Participation and sign the non-disclosure agreement will progress to Stage 2.

Stage 2-Tender Stage

The Tender Stage consists of the following:

Quality-bidders must respond to the technical questions.

Price-bidders must complete the pricing schedule based on the pricing scenario.

Social Value-bidders must respond to the social value questions providing information relevant to how these will be addressed over the lifetime of the Framework.

Stage 3 -Demonstration Stage

The highest scoring bidder will be invited to demonstrate their solution. If the bidder is unable to verify the information submitted in their ITT submission the next ranking bidder will be invited to demonstrate their solution.
