I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Recreation, culture and religion

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

British Museum South West Energy Centre Mechanical and Electrical Engineer

Reference number

BM.22.053

II.1.2) Main CPV code

- 71334000 - Mechanical and electrical engineering services

II.1.3) Type of contract

Services

II.1.4) Short description

PLEASE NOTE THIS NOTICE IS TO ANNOUNCE THE AWARD OF CONTRACT. THIS IS NOT A CURRENT CONTRACT OPPORTUNITY. The British Museum is seeking to appoint a mechanical, electrical, public health and fire services engineering consultant (MEPHF engineer) to provide services for the delivery of the South-West Energy Centre (SWEC) project from RIBA Stage 3 onwards. The appointed consultant will also be required to act as Lead Consultant, Lead Designer, Principal Designer, Design

Management and Lead Appointed Party.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Lowest offer: £1,179,388 / Highest offer: £2,018,880 taken into consideration

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

Main site or place of performance

LONDON

II.2.4) Description of the procurement

The British Museum is unique in bringing together under one roof the cultures of the world, spanning continents and ocean. No other museum is responsible for collections of the same depth and breadth, beauty and significance. Its eight million objects allow us to explore the extraordinary diversity of human cultures, from small communities to vast empires, to discover the many forms and expressions human beings have given to every aspect of life, and to realise how closely they are connected. While the Museum's Bloomsbury estate is as well-known and loved as much as many of the great artefacts the building contains, the Museum's engineering systems and infrastructure have been adapted and developed piecemeal over time to meet the evolving needs of the Museum. This has resulted in a highly complex and uncoordinated building services strategy across the estate, and in some areas the systems and infrastructure are outdated and at risk of failure. There is also limited resilience and flexibility and no common route for the major heating and power distribution. The SWEC project is a major infrastructure project that is designed to improve energy supply and generation, rationalise services distribution, and provide resilience for the Bloomsbury estate. The project is also a key enabler which will support ongoing asset and infrastructure renewal and the emerging aspirations of the Museum's masterplan. The appointed consultant will be required to provide the following services for RIBA Stage 3 onwards: • Mechanical and electrical engineering • Public health engineering • Fire engineering • Lift engineering • Lighting engineering • Energy management consulting • Acoustics engineering • Security systems engineering • BREEAM assessment consulting • Environmental modelling In addition to the above, the

appointed consultant will also be required to fulfil the following roles: • Lead Consultant • Lead Designer • Principal Designer (as defined in CDM 2015) • Design Management • Lead Appointed Party (as defined in ISO 19650) An estimated total value of £1,250,000 has been given at II.1.5 and II.2.6 in this notice. This is the mid-point of the range of £1,000,000 to £1,500,000 which is the project team's best estimate of the likely value of this contract based on the information currently available.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

IV.1) Description

IV.1.1) Type of procedure

Restricted procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-024342](#)

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

30 August 2023

V.2.2) Information about tenders

Number of tenders received: 5

Number of tenders received from SMEs: 1

Number of tenders received from tenderers from non-EU Member States: 5

Number of tenders received by electronic means: 5

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

Steensen Varming Ltd

4th Floor Noland House, 12-13 Poland Street, Soho

London

W1F 8QB

Country

United Kingdom

NUTS code

- UKI - London

National registration number

08636280

The contractor is an SME

Yes

V.2.4) Information on value of contract/lot (excluding VAT)

Initial estimated total value of the contract/lot: £1,250,000

Lowest offer: £1,179,388 / Highest offer: £2,018,880 taken into consideration
