Tender

953904621 T1375 Exploring methods to monitor and model the safety risk of battery trains as they are introduced to the Network

Rail Safety Standards Board (RSSB)

UK4: Tender notice - Procurement Act 2023 - view information about notice types

Notice identifier: 2025/S 000-028284

Procurement identifier (OCID): ocds-h6vhtk-05286e

Published 28 May 2025, 7:05pm

Scope

Description

RSSB seeks to procure research to address the following research objectives:

- •Improve the rail industry's understanding of how the safety risk of a LIB train compares to the safety risk of a combustion engine train.
- •Enable the rail industry to model changes in the risk profiles associated with the phased introduction of LIB trains to the rail network to replace diesel-only trains.
