Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Track Drainage Services by Train/On Track Machine

II.1.2) Main CPV code

- 34621000 - Railway maintenance or service vehicles, and railway freight wagons

II.1.3) Type of contract

Supplies

II.1.4) Short description

Network Rail has a current demand for mechanical drain clearance over a large geographical area and at a high rate and large volume per visit (shift). Predominately this demand is seen in Scotland and Southern regions but occasionally on other Regions too.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 34621200 - Railway maintenance or service vehicles

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Network Rail is exploring the availability of train borne drain clearance for use under a long term contract to continue to serve demand from Scotland and Southern regions, and potentially expand the areas served and the scope of the drainage service. Material to be cleared from drains will include compacted sewage, bricks, ballast and silt. To be clear Network Rail has alternative existing services for rail-road vehicles and manual drainage clearance which are out of scope of this market enquiry.

Currently the demand of about 350 shifts per annum.

II.2.14) Additional information

NR is looking to engage and harness the intelligence and knowledge of the supply chain. If you are interested in this opportunity please respond to Rebecca.mulvanerty@networkrail.co.uk by 30/11/21. Further information including a questionnaire will then be issued and responses will be required by 17/12/21.

Following receipt of the questionnaires Suppliers may be required to carry out a presentation

II.3) Estimated date of publication of contract notice

31 August 2022

Section IV. Procedure
