Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Direct award via a waiver to the incumbent provider for one year only. It is not possible for another contractor to be procured for this one year period because it requires bespoke code to be written for the Council. Also, the current monitoring system is owned by Phoenix Software Ltd and was purpose built to the Council's requirements. Another organisation cannot provide the commissioned service given the code owned by the incumbent provider would not be transferrable. Failure to maintain this system, exposes the Council to a far greater risk of undetected cyber-attack.
