II.1.4) Short description

Lincolnshire County Council will be undertaking a procurement in line with Regulations 74-76 of the Public Contract Regulations 2015 (PCR) the light touch regime and pursuant to Reg 76(7) of the PCRs.

The Strategic Market Support Service (SMSS) and Care Home Trusted Assessors (CHTA) contracts main aim is to engage with care providers to support and develop the market and to meet the demand for critical adult social care services.

The SMSS provides long term stability through the delivery of a workforce strategy and supportive workforce training needs analysis, with the subsequent delivery of education and training courses to develop Lincolnshire care services and their workforce whilst ensuring the offer of support to the provider market is attractive and meaningful. This leads to a longer term plan of sustainability to ensure that all Lincolnshire residents who receive their care from independent and third sector providers in Lincolnshire will have those services delivered by a skilled, competent and caring workforce.

The CHTA service aims to reduce the demand (and need) for care home managers (or care home staff) to attend an acute hospital setting to review the suitability of someone ready for discharge. The CHTA team complete discharge assessments in a time responsive manner which supports the urgency of operational capacity and demand in the acute hospital setting and promotes discharges seven days a week.

The contract will start on 1st April 2022 and will be for an initial 3 years with options to

extend further.

II.2.4) Description of the procurement

The Care Home Trusted Assessors (CHTA) contract will establish a team of suitably qualified and experienced staff to support operational hospital discharges pressures. Their role is to conduct an operational assessment of all individuals identified as medically optimised and fit for discharge from Boston, Lincoln, Grantham and Peterborough hospitals; who may require short or long term social care support. On completion of the assessment, supplementary information is collated and submitted to the provider(s), reducing the necessity for individual providers to attend the hospital to complete their own assessment and therefore reducing unnecessary delays to hospital discharge.
