II.2.4) Description of the procurement

This contract relates to the provision of proprietary equipment and associated maintenance relative to NGN's odorant injection system. The original contract was awarded in 2012 for ongoing maintenance support. Following the initial term various extensions have been put in place by way of contract variations along with subsequent purchase of additional proprietary equipment used to replace equipment which due to age is no longer serviceable. The total contract value is now above threshold and as such this notice is being issued.

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

(1) Utilities may use the negotiated procedure without prior call for competition in the following cases- (e) in the case of supply contracts for additional deliveries by the original supplier which are intended either as a partial replacement of supplies or installations or as the extension of existing supplies or installations, where a change of supplier would oblige the utility to acquire supplies having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession
