II.1.4) Short description

West Sussex County Council (the Council) has a growing number of assets which require sub-metering for example: rooftop solar PV systems and heat pumps. The performance of these systems are measured using sub-meters and some sites also have meters installed to check the quantity of exported electricity (for solar PV systems). These readings are used to:

Monitor performance.
Prepare claims for Feed in Tariff payments; and
Prepare billing for building occupiers.

Having complete half hourly readings available on a day + 1 basis is an essential part of our asset management.
