Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

Design, Supply & Installation Solar Photovoltaic (PV) Panel Systems & Associated Equipment - Multi Contractor Framework 2024

II.1.2) Main CPV code

- 45261215 - Solar panel roof-covering work

II.1.3) Type of contract

Works

II.1.4) Short description

Portsmouth City Council (the Council) is seeking to invite tenders from contractors for inclusion on a new Solar PV & Associated Equipment Framework.

Contractors will be expected to undertake a range of energy generation works, including the design, supply and installation, and if required operation and maintenance of solar photovoltaic (PV) panel systems and associated equipment, taking on the role of Principal

Contractor or sub-contractor to oversee and manage works using a range of either direct labour or through sub-contractors.

The Framework will serve as the primary route to procure solar PV & battery storage for Portsmouth City Council, with works generally being undertaken to the Council's portfolio of nearly 15,000 social housing properties and 900 corporate assets to help contribute towards the Council's 2030 Net Zero Carbon target.

The framework will be split into two lots, to cover lower value higher frequency call offs and higher value more complex packages of works -

- Lot 1 - works to the value up to £300K, typically in the region of £20K to £50K. There will be up to 14 contractors on this lot, with a primary tier of 6 contractors and a secondary tier of up to 8 contractors.
- Lot 2 - works from £150K, with no upper limit for the works but typically the works will range from £150,000 to £400,000. There will be up to 10 contractors with 5 contractors on the primary tier and up to 5 contractors on the secondary tier.

Contractors will be able to apply to either or both tiers of the framework agreement.

The framework agreement will be established via evaluation of tenders submitted for the following live Council projects:

Lot 1 - Brambles Infant School and Nursery - Supply and Installation, with elements of Contractor's Design of 37kWp Solar Photovoltaics (PV) at Brambles Infant School and Nursery value -estimated at £40K

Lot 2 - Mountbatten Centre - Design, Supply and Installation of 280kW Solar Photovoltaics (PV) at Mountbatten Centre -value estimated at £240K

The framework will allow for award of call off contracts via mini-competition and direct award against a range of options. The value and type of individual call offs is expected to vary considerably due to the Council's extensive portfolio.

The Council is aiming to have established the framework agreement by December 2024. Once in place the agreement will run for a duration of 4 years.

The framework will be available for access to all contracting authorities- situated within Hampshire, Isle of Wight, East Sussex, West Sussex, Berkshire, Surrey, Wiltshire, Dorset and Oxfordshire who may use this framework agreement to install systems across their property portfolios.

It is anticipated that over the 4-year period approximately up to £25m of projects may be

procured through the Framework under lot 1 and up to £50m under lot 2.

The above figures covers estimated demand by the Council and use from other contracting authorities that will be able to access the framework agreement, either directly or via the Council, although no commitment can be made in this respect.

The Council will establish the framework agreement in accordance with the Open Procedure as defined within the Public Contracts Regulations (2015) following the timetable set out below:

Procurement Documents published on Intend - 14/08/24

Site Visits - Brambles School & Mountbatten Centre - 21/08/24 at 10:30 & 12:00 & 22/08/24 at 10:30 & 12:00

Bidders briefing session via Microsoft Teams - 28/08/24 at 14:00

Deadline for requests for clarification - 05/09/24 by 16:00

Tender return deadline - 16/09/24 at 10:00

Award decision notified to tenderers - 01/11/24

Contract Award confirmed - 12/11/24

Start of works onsite - lot 1 & 2 - 09/12/24

Completion of works -lot 1 - 17/01/25

Completion of works -lot 2 - 31/01/25

The closing date for submission of tenders is Monday 16th September 2024 at 10:00.

The majority of call off contracts will be let using the JCT Minor Works Contract w/ Contractors Design or the JCT Intermediate Construction Contract w/Contractors Design, however the full suite of JCT contracts maybe utilised.

The majority of call off contracts will be let via traditional single stage tender - whether via mini-competition or direct award. However, alternative procurement strategies such as 2 stage open book partner contracting may also be utilised.

The majority of call off contracts will be let using the JCT Minor Works Contract w/ Contractors Design or the JCT Intermediate Construction Contract w/Contractors Design, however the full suite of JCT contracts maybe utilised.

The majority of call off contracts will be let via traditional single stage tender - whether via mini-competition or direct award. However, alternative procurement strategies such as 2 stage open book partner contracting may also be utilised.

Under lot 2 of the framework, contractors will be required to demonstrate experience of delivering schemes under the JCT form of contract or equivalent i.e. EPC, NEC which include the following features -

- o Definition of Roles and Responsibilities
- o Design Responsibility
- o Damages
- o Defects
- o Retention
- o Dispute Resolution Mechanisms
- o Payment Structure
- o Risk Allocation

- o Insurance Provisions
- o Variation and Change Management
- o Performance Indicators

The Council have historically not awarded any call off contracts under previous iterations of PV framework under anything but JCT forms of contract.

The framework agreement itself will predominantly be making awards under a JCT form of contract, likely to include contractors design portions, with the option to use any of the NEC suite of contracts. No other form of contracts has been referenced in the framework agreement and would not be allowed for in future procurements.
