## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Provision of Tech Scalars

Reference number

CASE/534846

#### **II.1.2) Main CPV code**

- 80510000 - Specialist training services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

The Scottish Government is seeking a suitably qualified and experienced supplier (thereinafter the Service Provider) with a proven track record in helping technology start-ups and scale-ups to learn, grow and achieve their ambitions. The Service Provider will undertake the administration and management of a national network of tech-scalars – new economic infrastructure to provide technology start-ups and scale-ups with the community environment, networks, support and education they need to grow.

#### **II.1.5) Estimated total value**

Value excluding VAT: £42,000,000

### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.2) Additional CPV code(s)**

- 80520000 - Training facilities
- 72222300 - Information technology services

### **II.2.3) Place of performance**

NUTS codes

- UKM - Scotland

Main site or place of performance

Scotland

### **II.2.4) Description of the procurement**

The objectives of this contract are to:

- Contribute, over time, to a sustained increase in the rate of profitable, scaled technology businesses generated by the Scottish tech ecosystem.
- Create, for the first time, a truly world-class national infrastructure to co-locate, educate and scale technology companies.
- Provide technology companies with free access to first-rate commercial education in internet economy growth techniques and related disciplines.
- Provide technology companies with access to high-quality, long-term, flexible and affordable incubation space.
- Support the creation of a world class community and market square environment; facilitating collaboration, networking and the exchange of ideas.
- Provide full virtual access to commercial education and community events for technology companies unable to physically co-locate.
- Provide a clear focal point for the Scottish tech ecosystem and to create a scaled, expert partner to collaborate with the broader STER programme to establish Scotland as a first

rate European tech hub.

### **II.2.5) Award criteria**

Quality criterion - Name: Technical / Weighting: 80%

Quality criterion - Name: Commercial / Weighting: 20%

Price - Weighting: 20%

### **II.2.6) Estimated value**

Value excluding VAT: £42,000,000

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

60

This contract is subject to renewal

Yes

Description of renewals

2 optional extensions of 12 months each

### **II.2.10) Information about variants**

Variants will be accepted: No

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

Question Scoring Methodology for Award Criteria outlined in invitation to tender:

0 — Unacceptable. Nil or inadequate response. Fails to demonstrate an ability to meet the requirement.

1 — Poor. Response is partially relevant but generally poor. The response addresses some elements of the

requirement but contains insufficient/limited detail or explanation to demonstrate how the requirement will be

fulfilled.

2 — Acceptable. Response is relevant and acceptable. The response addresses a broad understanding of the

requirement but may lack details on how the requirement will be fulfilled in certain areas.

3 — Good. Response is relevant and good. The response is sufficiently detailed to demonstrate a good

understanding and provides details on how the requirements will be fulfilled.

4 — Excellent. Response is completely relevant and excellent overall.

The buyer is using PCS-Tender to conduct this ITT exercise. The Project code is 20042. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2343>

A sub-contract clause has been included in this contract. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2363>

Community benefits are included in this requirement. For more information see:

<https://www.gov.scot/policies/public-sector-procurement/community-benefits-in-procurement/>

A summary of the expected community benefits has been provided as follows:

The following community benefit objectives will be evaluated as part of the tender process, the successful service provider will be expected to present a community benefit proposal with their tender detailing how, in the event that they should be successful in winning the contract, they will address Community Benefits.

The tenderer must provide a Community Benefits proposal that is relevant to the subject matter of this contract and supports the Scottish Ministers' commitment to contributing to the social, economic & environmental well-being of the people of Scotland, as described in the specification.

Tenderers should not provide details of any existing initiatives they already undertake as part of their day-to-day business and the community benefits proposed must be generated specifically for and as a result of this contract, detailing how you will address the following Community Benefit themes:

- Encouraging participating companies to support local school Computing Science departments and extra-curricular coding clubs;

- Facilitating the creation of effective industry partnerships with schools to give computing science pupils, undergraduates and recent graduates access to work experience and/or internships;

- Supporting the work of the Scottish Government and its agencies to improve the participation of women in the study of computing science;
- Supporting and/or leading work to increase the number of companies founded by people with protected characteristics;
- Contributing to the work of the university and college sectors to develop a higher rate of successful technology businesses led by staff and students; and
- Encouraging participating companies to engage with the development of relevant apprenticeship frameworks.
