During 2023 and 2024 the community Mental Health Transformation programme has worked to coproduce an integrated model of support for people living with severe mental illness, develop pathways and articulate what interventions are required to support people to live well in their local communities. This work has informed what services are required as part of the model going forward.

The ICB is committed to providing stability to the sector and a model of services is being proposed, which will procure services. It is the intention of the ICB to start commissioning contracts for the above services from 1st April 2025 for 3 years, with an option to extend for a further 2 years.
