Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Substance Misuse Treatment Services (Leicestershire and Rutland)

II.1.2) Main CPV code

- 85000000 - Health and social work services

II.1.3) Type of contract

Services

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKF22 - Leicestershire CC and Rutland

II.2.4) Description of the procurement at the time of conclusion of the contract:

Leicestershire County Council and Rutland County Council procured a new Integrated Substance Misuse Treatment service.

The Councils are also working in partnership with the Office for the Police and Crime Commissioner for Leicestershire and the National Probation Service - East Midlands, who will provide funding via the Contract to meet specific elements within the service.

The aim of this Integrated Substance Misuse Treatment service is to deliver a trauma informed treatment service for young persons, young adults and adults within Leicestershire and Rutland who are experiencing problematic substance misuse. The service will take a recovery-based approach as well as a whole family approach with the

aim of reducing harms and supporting recovery thereby improving overall health, wellbeing and safety.

The Service will be an open access service for all residents of Leicestershire (excluding Leicester City) and Rutland who are seeking support for their substance misuse and will include:

- Community based drug and alcohol services for young people, young adults and adults
- Support for children and young people whose parents are misusing substances
- Blood borne virus testing and vaccination
- Harm reduction services e.g. needle and syringe programmes
- Supervised consumption services
- Inpatient detoxification services
- Residential rehabilitation placements (for Leicestershire residents only)
- Training and development of the wider workforce
- Criminal justice substance misuse services

II.2.7) Duration of the contract, framework agreement, dynamic purchasing system or concession

Duration in months

48

United Kingdom

NUTS code

- UKF22 - Leicestershire CC and Rutland

Companies House

00793558

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

There has been an increase in both alcohol and alcohol dependant drinkers which has been on the increase year on year; the pandemic has increased this further. A three year pilot has been put in place to intervene via a fibro scanner, nurse and outreach work via the current service provider.

Also, The local CCG previously funded a 7 month pilot for a Dual Diagnosis specialist service to sit inside the main Substance Misuse Treatment service, but to focus on service users with a dual mental health support need. This pilot has proved to be successful and so funding is continuing for this dual diagnosis support. The service will be dual diagnosis support with enhanced trained recovery workers and psychology support will bridge this gap. Turning Point will continue to build relationships, improve referral pathways as well as increase the service specifically for mental health and substance misuse. The funding will also allow for additional time through appointments for those service users with mental health needs.

The Council has also received a Office for Health Improvement and Disparities (OHID) Supplementary Substance Misuse Delivery Grant (SSMDG). The additional services this grant will provide will be most effective delivered alongside the main service. The grant will be used to enhance the prevention and retention work that has already been taking place, including further enabling all of the relevant areas within the universal grant that was previously awarded and will be continuing.

These modifications were envisaged in the ITT documentation, but not in a clear, precise and unequivocal review clause.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

These are relatively small modifications to a large integrated substance misuse service that will manifest whilst service users are inside the service. Because of this, a change of contractor is impractical from an economic perspective and because it could lead to disengagement of service users.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £25,250,000

Total contract value after the modifications

Value excluding VAT: £27,860,000
