Value excluding VAT: £10,300,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 71317200 - Health and safety services

II.2.3) Place of performance

NUTS codes

- UKD1 - Cumbria

Main site or place of performance

Cumbria

II.2.4) Description of the procurement

Lot 1: Environmental Assessment, Development and application of modelling codes and numerical analysis- £2.3- £2.6 million

Examples include, GIS, Model and Software Development, Technical Assessments (Emergency), Technical Assessment (construction soil and spoil management), Technical Assessment (CSM), Technical Assessment (Modelling and analysis), Technical Assessment (Waste disposal).

Lot 2: Monitoring and Characterisation £1.8- £2 million

Examples include BAT Case (env monitoring, inc LQ), BAT Case (Waste), Dosimetry, Environmental Monitoring, Technical Assessment (Analytical Radiochemistry), Technical Assessment (data and/or model review), Technical Assessment (Land Quality), Technical Assessment (research or technology review).

Lot 3: Regulatory compliance and improvement £1.8- £2 million

Examples include, Ecology Support and Surveys, Facility Environmental Case (plant

operations BAT assessment), Planning and EIA, Project Env Support.

Lot 4: Sustainability & Carbon Management £700k-£1 million

Examples include, calculation of the Sellafield Ltd carbon footprint and support to external carbon emissions reporting, development of carbon footprint in line with changing requirements including improvement to Scope 3 emissions data, support to UKETS submissions and future requirements, creation and maintenance of carbon management tools such as those associated with Whole Life Carbon Assessment or Scope 3 emissions, delivery of relevant assessments in line with Sellafield requirements (for example, delivery of a whole life carbon assessment where assessor support to a project is unavailable), relevant expert input on new or emergent requirements to support the Carbon Management Centre of Expertise, relevant expert input to support energy and water improvement activities

Lot 5: Chemical Identification, DSEAR Assessments and provision of asbestos co-ordinates scope £2.5- £2.7 million examples include Assessment/Testing of Chemicals in support of the Waste operating unit to establish sufficient information so that they can be individually classified as to hazard class or subclass, composition, and condition such that they can be safely stored and subsequently removed from the site for disposal, which includes undertaking a series of chemical tests.

* Value range is estimated on 9 year Framework Agreement

II.2.14) Additional information

As detailed in section II.1.4.1 Sellafield Ltd is conducting Market Engagement activity through a Request for Information (RFI) form to obtain feedback from interested Suppliers in relation to the technical and commercial elements associated with this procurement

As referred to in I.3) Communication, the market engagement activity will be managed via the Atamis e-procurement portal, which can be accessed via the URL (<https://one-nda.force.com/s/Welcome>).

Once you have registered and accessed the portal, if you are interested in participating and providing feedback through the RFI details can be located via Atamis reference C21719.

Sellafield Ltd requests that all completed RFI forms are returned via the Atamis messaging functionality under Atamis reference C21719.

II.3) Estimated date of publication of contract notice

21 October 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
