I.2) Information about joint procurement

The contract involves joint procurement

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Corporate Power Purchase Agreement

II.1.2) Main CPV code

- 09300000 - Electricity, heating, solar and nuclear energy

II.1.3) Type of contract

Supplies

II.1.4) Short description

NI Water is the largest user of electricity in Northern Ireland and currently consumes approximately 290 GWh of electricity per annum and is seeking to agree commercially attractive PPAs with suitable renewable projects to deliver approximately 45 – 90 GWh of power per annum across almost 3000 sites. With the introduction of iSEM and the volatility of electricity pricing, which is heavily influenced by commodity and foreign exchange markets, NI Water recognises the potential for it to engage with renewable developers and procure electricity for future years providing both a reliable supply of “green” electricity and price security for periods of 10-20 years. NI Water wishes to procure between 15-30 percent of its electricity from renewable sources through off site Corporate Power Purchase Agreements (CPPAs). As a result NI Water is looking run a competitive tender process and enter into a Contract(s) for CPPA(s) to provide this supply of electricity to a number of NI Water sites.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 65300000 - Electricity distribution and related services
- 65400000 - Other sources of energy supplies and distribution

II.2.3) Place of performance

NUTS codes

- UKN - Northern Ireland
- UK - United Kingdom

II.2.4) Description of the procurement

NI Water is the largest user of electricity in Northern Ireland and currently consumes approximately 290 GWh of electricity per annum and is seeking to agree commercially attractive PPAs with suitable renewable projects to deliver approximately 45 – 90 GWh of power per annum across almost 3000 sites. With the introduction of iSEM and the volatility of electricity pricing, which is heavily influenced by commodity and foreign exchange markets, NI Water recognises the potential for it to engage with renewable developers and procure electricity for future years providing both a reliable supply of “green” electricity and price security for periods of 10-20 years. NI Water wishes to procure between 15-30 percent of its electricity from renewable sources through off site Corporate Power Purchase Agreements (CPPAs). As a result NI Water is looking run a competitive tender process and enter into a Contract(s) for CPPA(s) to provide this supply of electricity to a number of NI Water sites.

II.2.5) Award criteria

Quality criterion - Name: N/A / Weighting: 0

Cost criterion - Name: N/A / Weighting: 0

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

Please note this tender process has now been cancelled

Section IV. Procedure

IV.1) Description
