Scope

Description

DICE staff and PhD students will go beyond UoK Travel Policy compliance for the duration of the E3 funding, counterbalancing our emissions impact through investment in Wilder Carbon (<https://www.wildercarbon.com>), the only not-for-profit and high integrity natural climate solution available in the UK. Wilder Carbon relates directly to the scope and remit of Making Space for Nature by protecting and restoring carbon-rich native habitats across the country for climate, biodiversity and society. The Wilder Carbon Standard delivers high quality conservation projects that result in long-term carbon lock-up and real biodiversity gains, instead of profit being generated from nature.
