The services will provide Level 2 Oral Surgery for patients, either residing in or currently under the care of a General Dental Practitioner (GDP), in Gloucestershire.

All Mandatory Dental Services, including simple non-surgical extractions, are excluded from the scope. This service is intended to deliver primarily Tier 2 Minor Oral Surgery without Sedation. Provision of Sedation could be considered in exceptional circumstances, in accordance with the Guidance for Commissioning Sedation for Dental Services in Primary Care 2017.

The aims of the service (with and without Sedation) are to:

- ensure that equitable, accessible, cost effective, high quality Minor Oral Surgery (MOS) services are available to the public locally;
- increase the availability and accessibility of the primary care based MOS services to those patients who require sedation to support them to receive a minor oral surgical procedure locally;
- release pressures and waiting times for treatment at secondary care centres; and
- reduce the number of patients receiving minor oral surgical procedures under general anaesthesia.

Performers will need to be accredited to provide the services to a Level 2 standard. The accreditation will be through an accreditation panel led by the Managed Clinical Network for Oral Surgery, with the support of NHS England and the ICB. Further information on accreditation can be found in the commissioning guide:
