Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Learning Management Software System

Reference number

P00004863

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Portsmouth City Council (The Council) is inviting tenders from suitably qualified suppliers to provide a Learning Management System.

The Council have operated a Learning Management System (LMS) since March 2010. The system was hosted on premise and known as the Portsmouth Learning Gateway (PLG). It provided a basic functionality that enabled self-services access to a menu of courses provided by Learning and Development (L&D) that were either mandatory (for governance and compliance purposes), part of continuous professional development (CPD) for regulated professions, such as social workers, or were part of suite of management and leadership development modules. In July 2022 the PLG system provider advised PCC of their intention to cease trading in the near future and an interim solution has been in place which means that is becoming increasingly critical that a new Learning Management System is secured to meet organisational priorities.

II.1.5) Estimated total value

Value excluding VAT: £255,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 48100000 - Industry specific software package
- 48930000 - Training and entertainment software package

II.2.3) Place of performance

NUTS codes

- UKJ31 - Portsmouth

II.2.4) Description of the procurement

Portsmouth City Council (The Council) is inviting tenders from suitably qualified suppliers to provide a Learning Management System.

The Council have operated a Learning Management System (LMS) since March 2010. The system was hosted on premise and known as the Portsmouth Learning Gateway (PLG). It provided a basic functionality that enabled self-services access to a menu of courses provided by Learning and Development (L&D) that were either mandatory (for governance and compliance purposes), part of continuous professional development (CPD) for regulated professions, such as social workers, or were part of suite of management and leadership development modules. In July 2022 the PLG system provider advised PCC of their intention to cease trading in the near future and an interim solution has been in place which means that is becoming increasingly critical that a new Learning Management System is secured to meet organisational priorities.

The learning management system (LMS) will need to handle all aspects of the learning process:

- organisational training content hosted, delivered, and tracked
- training administration automated
- learner engagement and participation monitored
- CPD records held; and
- data stored for reporting (including statutory) purposes.

Having a LMS is also a fundamental pillar of the employee experience and an area that can contribute significantly to employee engagement and improve our ability to grow our own talent and retain key skills.

The reporting and recording functions are a key management tool in the LMS, enabling managers to monitor compliance with mandatory and statutory training. Reporting also enables the monitoring of access to development opportunities to ensure they are fair and don't disadvantage any group of people and is a key tool in workforce and succession planning activity.

Crucially, LMS reporting tools support managers, directorates, and schools where there is an inspection requirement e.g., Ofsted / CQC to evidence training undertaken. The tools should also ensure that key information required for Freedom of Information requests, Subject Access Requests, investigations, and insurance compliance, mitigate the risk to Portsmouth City Council.

The LMS should also provide our registered professions e.g., Social Workers, Occupational Therapists, Teachers with a single place to record their continual professional development (CPD),

Key to Portsmouth City Council's Workforce and OD Strategy, the LMS should support delivery of a smooth employee onboarding experience through role specific induction pathways, ability to act on personal development plans and alignment to career pathways all of which are central to delivering our priorities of retention and development of our workforce.

The LMS should automate course bookings and course registers; record attendance, send out reminders, confirmations, and evaluations. The LMS must also enable partner agencies and those without access to the Council network to access training in a convenient way on any device.

The initial contract period will be 4 years with the option to extend on a yearly rolling basis.

The estimated contract value is based on a 4 year term in accordance with the Public Contract Regulations 2015 section 6 (19) (b). If extension options are taken up past the 4 year period then the value will increase accordingly.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £255,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

The initial contract period will be 4 years with the option to extend on a yearly rolling basis.

The estimated contract value is based on a 4 year term in accordance with the Public Contract Regulations 2015 section 6 (19) (b). If extension options are taken up past the 4 year period then the value will increase accordingly.
