VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Extension of existing agreement for an additional 7 months until 31/12/2023.

This extension will allow prioritization of resource and ensure project team members have availability to complete procurement activities on time.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

A Testing Development Programme has now been established to renew of NHSBT's bulk blood testing services over the next two to three years. This is due to anticipated technical developments in the market and two of our key technologies becoming obsolete in the very near future. This in addition to the ministerial direction to introduce testing for Occult Hepatitis B Infection (OBI). Due to the significant overlap of essential resource required to complete the 7 critical tender exercises across the next two years, an extension has been granted for the existing Primary Blood Grouping agreement.

This extension will ensure project team members have availability to complete procurement activities on time.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £2,570,000

Total contract value after the modifications

Value excluding VAT: £2,840,000
