#### II.1.3) Type of contract

Works

#### II.1.4) Short description

Southern Electric Power Distribution intends to award framework agreements for the construction, repair, maintenance and dismantlement of overhead lines and poles on Distribution Networks up to and including 33kV. Whilst conducting Overhead Lines (OHL) Works, there will be a requirement to provide associated ancillary services such as jointing, traffic management, excavation, reinstatement and underground installation of cable. There will also be an expectation that the Supplier will provide their staff to assist with repairs to the OHL network due to adverse weather. The Supplier will make available their normal resource levels in support of such emergency weather events.

The geographical spread covers the Distribution South Network, namely the regions of Thames Valley, Ridgeway, Wessex, and Southeast (including the Isle of Wight).
