Network Rail Eastern Midland Main Line Electrification Partnership Framework

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

Network Rail (NR) intends to select suppliers to the Midland Main Line Electrification (MMLE) Partnership Framework for an initial term of 5 years with the option to extend yearly increments up to a further 5 years.

The MMLE programme will extend electric operation on the MML through to Nottingham and Sheffield. To help realise early electrification benefits Route Section (between Market Harborough to Wigston South) has been delivered separately from the remaining route sections as a continuation of the existing programme. The scope of this procurement is for the next stage of the electrification between Wigston and Nottingham out to Sheffield. The values for each Lot are estimates only. As such, they are not guaranteed and do not act as a minimum or maximum work value for the programme nor a guarantee as to volume.

One key MMLE objective is 'delivery on spend per single track kilometre (£/STK) target'. The recently commissioned London to Corby electrification was delivered at a rate of £3.7m per STK with the application of SPEED principles. The next stage of electrification is targeted to deliver £2.5m per STK. This programme focuses on challenging and driving down the STK rate. Details of all the MMLE objectives can be found in the Strategic Brief.

The Framework shall be split into the 4 work disciplines across the following delivery lots: Lot 1 – Power & Distribution; Lot 2 – Structures & Civils; Lot 3 – OLE & Integration; Lot 4 – Signalling & Telecoms. The values for each Lot are estimates only. As such, they are not guaranteed and do not act as a minimum or maximum work value for the programme nor a guarantee as to volume. There will be 1 Partner plus 2 pre-qualified reserve suppliers appointed to Lots 1, 2, 3 & 4 on the framework. Reserve suppliers have been included to achieve appropriate resilience in delivery and to ensure business contingency. Tenderers may bid for any number of lots, and be awarded on a maximum of 2 different lots.

The Partnership Framework includes a performance-based incentive mechanism to drive the STK rate and achieve the other MMLE objectives, including health and safety, decarbonisation and social value. Partners will be incentivised both individually and collectively.

There will be an opportunity to comment on the contractual documentation. NR will

determine which, if any, changes should result in revisions to the Framework based on the objective merit of the proposed changes. Further detail is set out in the Instructions to Participants. The contractual documentation will not be subject to negotiation. The negotiations will relate to the price element only. Participants will have an opportunity to update their tenders following negotiations. Initial Tenders will be evaluated but feedback will not be shared with participants. Only feedback on Final Tenders will be shared.

Please note, that the value ranges of each Lot in the Instructions to Participants are indicative only. Similarly, whilst the Contract Notice states a Framework value cap of £1.2bn, NR currently has internal governance approval for a Framework value of £950 million (associated with the main elements of the MMLE works as currently envisaged). The higher value included in the Contract Notice is not an absolute cap but is indicative of the potential level to which the original budget could increase if additional works and services to that which is currently envisaged, are required. All values are estimates only, and the final values will depend on the precise works and services required to be delivered, the means of delivery, the way in which projects and project risks materialise, the actual rates of inflation up to completion of the programme, and other factors.

II.1.5) Estimated total value

Value excluding VAT: £1,200,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for maximum number of lots

4

Maximum number of lots that may be awarded to one tenderer: 2

II.2) Description

II.2.1) Title

Power & Distribution

Lot No

1

II.2.2) Additional CPV code(s)

- 45100000 - Site preparation work
- 45200000 - Works for complete or part construction and civil engineering work
- 45210000 - Building construction work
- 45213320 - Construction work for buildings relating to railway transport
- 45213321 - Railway station construction work
- 45221112 - Railway bridge construction work
- 45300000 - Building installation work
- 71332000 - Geotechnical engineering services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The project includes for wiring the existing route configuration and at the existing line speeds.

The works described within this Lot are deemed to include all supporting activities required to deliver the works including but not limited to:

- Site establishment
- Delivery and storage of equipment (access, RRAPs where required)
- Enabling works
- De-vegetation
- Surveys (intrusive or otherwise)
- Road closures
- Traffic management

- Passenger Management
- Managing specialist sub-contractors
- Supporting integration of all works through to hand back
- Working collaboratively with the client team, other interfacing contractors and projects, design consultants engaged by the client, rail industry partners and stakeholders.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £125,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

120

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged minimum number: 5

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

The initial term of the framework will be 5 years with an option, to extend in yearly increments up to a further 5 years.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

The lot value is for guidance only and is based on the projected spend for the 10 year framework duration.

II.2) Description

II.2.1) Title

Structures & Civils

Lot No

2

II.2.2) Additional CPV code(s)

- 45100000 - Site preparation work
- 45200000 - Works for complete or part construction and civil engineering work
- 45210000 - Building construction work
- 45213320 - Construction work for buildings relating to railway transport
- 45213321 - Railway station construction work
- 45221112 - Railway bridge construction work
- 45300000 - Building installation work
- 71332000 - Geotechnical engineering services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The works described within this Lot are deemed to include all supporting activities required to deliver the works including:

- Site establishment
- Delivery and storage of equipment (access, RRAPs where required)
- Enabling works
- De-vegetation
- Surveys (intrusive or otherwise)
- Road closures
- Traffic management
- Passenger management
- Managing specialist sub-contractors
- Supporting integration of all works through to hand back
- Working collaboratively with the Client team, other interfacing Contractors and projects, design consultants engaged by the Client, rail industry partners and stakeholders.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £3,400,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

120

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged minimum number: 5

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

The initial term of the framework will be 5 years with an option, to extend in yearly increments up to a further 5 years.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

The lot value is for guidance only and is based on the projected spend for the 10 year framework duration.

II.2) Description

II.2.1) Title

Overhead Line Equipment (OLE)

Lot No

3

II.2.2) Additional CPV code(s)

- 45100000 - Site preparation work
- 45200000 - Works for complete or part construction and civil engineering work
- 45210000 - Building construction work
- 45213320 - Construction work for buildings relating to railway transport
- 45213321 - Railway station construction work

- Working collaboratively with the client team, other interfacing Contractors and projects, design consultants engaged by the client, rail industry partners and stakeholders.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £100,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

120

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

The initial term of the framework will be 5 years with an option, to extend in yearly increments up to a further 5 years.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

The lot value is for guidance only and is based on the projected spend for the 10-year framework duration with estimated uplifts.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

Holding a PCL (an NR Principle Contractors Licence) is required by successful suppliers to provide works pursuant to the MMLE programme.

Lot 3 OLE Tenderers must hold a PCL from the outset. Applicants that do not hold a PCL must submit an application for one in order to be successful in this procurement.

For all other Lots suppliers who do not hold a PCL will be required to apply for one by the award date shown in specified in the Procurement Event Timetable set out in the Instructions to Participants or communicated through BravoNR (if these dates are not the same, the dates communicated through BravoNR shall take precedence).

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

As detailed in the procurement documents.

III.2.3) Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

Envisaged maximum number of participants to the framework agreement: 12

In the case of framework agreements, provide justification for any duration exceeding 8 years:

Extended term is necessary due to: 1) upfront investment 2) Cultural/Organisational Alignment 3) Programme Flexibility 4) Working Practices 5) Standardisation 6) Skills Shortage.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-013856](#)

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

1 December 2023

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 9 (from the date stated for receipt of tender)

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.4) Procedures for review

VI.4.1) Review body

High Court of England and Wales Royal Courts of Justice

Strand

London

WC1A 2LL

Country

United Kingdom

VI.4.2) Body responsible for mediation procedures

High Court of England and Wales Royal Courts of Justice

Strand
