#### **II.2.4) Description of the procurement**

UKRI are looking to contract with Specialist a Water Systems Compliance Supplier who has extensive technical and commercial capability to deliver all aspects of the services. Please refer to the full set of documents to see the full scope of services required. The scope of work includes; Maintaining water quality, minimising corrosion and scaling, and ensuring regulatory compliance. Responsibilities entail routine sampling using sterile techniques, chemical analysis, and adjusting treatment protocols as needed. Deliverables include quarterly reports on sampling results and treatment activities, alongside documentation of corrective actions and system maintenance. Health, safety, and environmental considerations are paramount, with adherence to regulations and continuous quality assurance measures in place.

The estimated value of the opportunity is £480,000 GBP ex VAT per year, of which £300,000 GBP is Planned Preventative Maintenance. The remainder of the yearly value is anticipated reactive, remedial or project work. This in turn leads to an estimation of £960,000.00 GBP ex VAT for the minimum two year contract. For the full potential duration of 3 years this is estimated at up to £1,440,000.00 GBP ex VAT. It should be noted that the Planned Preventative Maintenance (PPM) is the only service that is guaranteed through this contract.
