II.1.1) Title

PRJ 1322 – Intermediate Care Beds - Lewisham

Reference number

DN693097

II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.1.4) Short description

NHS South East London ICB is seeking to commission Intermediate Care Beds Services. The service will provide a 14 Intermediate Care Beds to support a responsive and deliverable bed based rehabilitation service, within the London Borough of Lewisham, 24 hours a day, 365 days a year.

The main service outcome will be to deliver a 14 bed based Intermediate Care rehabilitation and

reablement service. The service is for adults aged 18 years and upwards. It will have capacity to support at least 4 double handed patients at any one time though the provider will be expected to give consideration to supporting a higher number of people with initial double handed support needs at point of hospital discharge. There will also need to be at least 2 beds designed and allocated to meet the needs of Bariatric patients.

Patients will predominantly be referred as part of the hospital discharge pathway. However, there will also be a 'step up' pathway to support avoidable hospital admissions where bed based rehabilitation would deliver the same or better results.

The step up referral might be appropriate for the following types of patients:

- Those that have coped well at home in the past but are beginning to demonstrate a marked

reduction in their level of functioning. Referrals will most likely be made by a healthcare professional and screened by the Urgent Care Response Team.

- Patients identified within the Emergency Department (ED) and Urgent Care Centre (UCC) who are deemed suitable with appropriate Rehabilitation Goals. In these circumstances, a written

discharge passport will be provided through the Trusted Assessor at the ED or UCC.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

NHS South East London ICB is seeking to commission Intermediate Care Beds Services. The service will provide a 14 Intermediate Care Beds to support a responsive and deliverable bed based rehabilitation service, within the London Borough of Lewisham, 24 hours a day, 365 days a year.

The main service outcome will be to deliver a 14 bed based Intermediate Care rehabilitation and

reablement service. The service is for adults aged 18 years and upwards. It will have capacity to support at least 4 double handed patients at any one time though the provider will be expected to give consideration to supporting a higher number of people with initial double handed support needs at point of hospital discharge. There will also need to be at least 2 beds designed and allocated to meet the needs of Bariatric patients.

Patients will predominantly be referred as part of the hospital discharge pathway. However, there will also be a 'step up' pathway to support avoidable hospital admissions where bed based rehabilitation would deliver the same or better results.

The step up referral might be appropriate for the following types of patients:

- Those that have coped well at home in the past but are beginning to demonstrate a

marked

reduction in their level of functioning. Referrals will most likely be made by a healthcare professional and screened by the Urgent Care Response Team.

- Patients identified within the Emergency Department (ED) and Urgent Care Centre (UCC) who are deemed suitable with appropriate Rehabilitation Goals. In these circumstances, a written

discharge passport will be provided through the Trusted Assessor at the ED or UCC.

There is also clear expectation that the service will work in partnership with Lewisham's 'Maximising Wellbeing at Home' four Neighborhood Lead Agencies for the delivery of care at home. This will allow that service to be aware of and engage with patients who have previously been in receipt of care at home who may require ongoing care and support on discharge home so that this is planned efficiently and effectively.

The ITT has been issued through the e-tendering portal. All Bidders wishing to participate must complete and submit Bids that comply with the requirements set out in the Document 1 ITT Guidance Document. Bidders are required to complete the online questionnaires on Pro Contract and upload any attachments as indicated before the deadline for submission of

bids specified in the ITT document.

The project on ProContract Portal can be accessed by clicking the following link:

<https://procontract.due-north.com/Advert?advertId=3e778e0a-6063-ee11-8124-005056b64545>

The deadline for the submission of tender is 17:00 Friday - 03 November 2023.

The deadline for any clarification questions is 27 October 2023

All clarification questions must be submitted via the messaging facility on Pro-contract.

II.2.6) Estimated value

Value excluding VAT: £2,948,400

II.2.7) Duration of the contract or the framework agreement

Start date

1 April 2024

End date

31 March 2027

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information
