Framework operation description

There are two procurement routes for an Approved Organisation that wishes to use this Framework. A competitive process between the Suppliers in the relevant Lot, which may be preceded by a capability assessment, or an award without a competitive process to particular Supplier(s)

Schedule 7 of the Framework explains the rules for both a competitive selection process and an award without a competitive process.

A competitive selection process is the default ordering procedure under this Framework

Either with or without competition

Justification for not publishing a preliminary market engagement notice

The Authority has carried out preliminary market engagement. A Prior Information Notice (P.I.N.) under the Public Contracts Regulations 2015 was published on 06/01/2025 on the Find a Tender Service <https://www.find-tender.service.gov.uk/Notice/000217-2025> and a formal Request for Information (RFI) issued. Meetings with potential suppliers were subsequently held. In carrying out preliminary market engagement the Authority is satisfied that:

(a) suppliers who participated in the preliminary market engagement have not been put at an unfair advantage, and

(b) competition in relation to the award of the public contract is not otherwise distorted.
