I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Annual SCRIM and SCANNER Surveys on the London Borough Principal Road Network

Reference number

tfl_scp_002147

II.1.2) Main CPV code

- 71353000 - Surface surveying services

II.1.3) Type of contract

Services

II.1.4) Short description

This contract is for the provision of two annual surveys to support investment decisions on London's Borough Principal Road Network (BPRN):

- a) A provider of annual Sideways-Force Coefficient Routine Investigation Machine (SCRIM) survey to identify areas of poor skid resistance on the BPRN; and
- b) A provider of annual Surface Condition Assessment of the National Network of Roads (SCANNER) survey to assess the road profile and any deformation issues on the BPRN.

The duration of the contract is 36 months with an option to extend by up to 12 months.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £416,000

II.2) Description

II.2.1) Title

SCRIM surveys

Lot No

1

II.2.2) Additional CPV code(s)

- 71631480 - Road-inspection services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The service requirement for this Lot 1 includes but is not limited to an annual SCRIM Survey on the London Borough Principal Road Network (BPRN) and the provision of the survey data and other deliverables in the required format, described in the Specification. The service requirement also includes the collection of the condition data by the Service Provider as an optional service on the Borough non-principal road networks (i.e. B, C and U Roads). The Service Provider is required to provide all the equipment necessary to carry out the surveys.

The Service Provider shall carry out all necessary validation and processing of the survey data in order to provide the results in a Highway Maintenance Data Interface Format (HMDIF) file suitable for loading into the Authority's United Kingdom Pavement Management System (UKPMS) and accurately fitting against the Authority's Network in Geographical Information System (GIS) format.

The Service Provider may also be required to provide forward facing video data taken at the time of the survey on each lane surveyed, referenced by section, chainage and date for ease of identification.

The SCRIM Survey shall be carried out in accordance with the Highways England Design Manual for Roads and Bridges (DMRB) CS 228 Skidding Resistance (formerly HD 28/15), the Transport for London Skid Resistance Policy

A single framework agreement for both lots has been awarded to a single supplier, having decided the supplier demonstrated the capacity and capability to deliver both surveys and whose offer will represent the most economically advantageous offer overall.

II.2.5) Award criteria

Cost criterion - Name: Quality / Weighting: 40

Cost criterion - Name: Price / Weighting: 60

II.2.11) Information about options

Options: Yes

Description of options

Option to extend by up to 12 months.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

SCANNER surveys

Lot No

2

II.2.2) Additional CPV code(s)

- 71631480 - Road-inspection services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The service requirement for this Lot 2 includes but is not limited to an annual SCANNER Survey on the London Borough Principal Road Network (BPRN) and the provision of the survey data and other deliverables in the required format, described in the Specification. The service requirement also includes the collection of the condition data by the Service Provider as an optional service on the Borough non-principal road networks (i.e. B, C and U Roads). The Service Provider is required to provide all the equipment necessary to

carry out the surveys.

The Service Provider shall carry out all necessary validation and processing of the survey data in order to provide the results in a Highway Maintenance Data Interface Format (HMDIF) file suitable for loading into the Authority's United Kingdom Pavement Management System (UKPMS) and accurately fitting against the Authority's Network in Geographical Information System (GIS) format.

The Service Provider may also be required to provide forward facing video data taken at the time of the survey on each lane surveyed, referenced by section, chainage and date for ease of identification.

The SCANNER Survey shall be carried out in accordance with the latest version of the SCANNER User Guide and Specification (Volumes 1 to 5) published by the UK Roads Board. The network to be surveyed comprises of Mainline (Dual and Single carriageway) sections and Slip Road sections..

A single framework agreement for both lots has been awarded to a single supplier, having decided the supplier demonstrated the capacity and capability to deliver both surveys and whose offer will represent the most economically advantageous offer overall.

II.2.5) Award criteria

Cost criterion - Name: Quality / Weighting: 40

Cost criterion - Name: Price / Weighting: 60
