Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Acquisition of LiDAR & Photogrammetry, hydrological Interpretation and development of restoration plans for NI Peatland sites

Reference number

Project_27215

II.1.2) Main CPV code

- 71000000 - Architectural, construction, engineering and inspection services

II.1.3) Type of contract

Services

II.1.4) Short description

Ulster Wildlife has been awarded funding through the DAERA Natural Heritage Environmental Challenge Fund 2022/23, to develop restoration plans for a selection of blanket and raised bogs Special Areas of Conservation (SACs) and Areas of Special Scientific Interest (ASSIs) across NI, as well as afforested priority peatland habitat adjacent to these designated sites.

Ulster Wildlife are seeking to appoint a qualified and experienced provider to deliver remote sensing LiDAR/photogrammetry and a range of hydrological restoration plans for drained, cutover, afforested and eroded blanket bog and raised bog sites. As the plans will be used to inform future funding bids for the delivery of peatland restoration works, they will include a detailed specification of works, cost range estimates and suggested monitoring protocols to measure improvements in hydrological functionality. The plans will draw on best practice and include prioritisation of works per site in terms of cost/benefit and potential for restoration success. This information will allow proposed restoration works to be prioritised and tailored to fit future funding budgets as necessary. The objective is to have a restoration works specification of sufficient detail to allow Ulster Wildlife to create a future tender documents for the delivery of the works.

Please see ITT documents for full details and instructions for submitting a tender.

II.1.5) Estimated total value

Value excluding VAT: £75,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

Maximum number of lots that may be awarded to one tenderer: 3

The contracting authority reserves the right to award contracts combining the following lots or groups of lots:

yes

II.2) Description

II.2.1) Title

Lough Navar and Teal Lough

Lot No

1

II.2.2) Additional CPV code(s)

- 71000000 - Architectural, construction, engineering and inspection services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Lough Navar Co Fermanagh and Teal Lough Co Tyrone, Northern Ireland

II.2.4) Description of the procurement

Ulster Wildlife are seeking to appoint a qualified and experienced provider to deliver remote sensing LiDAR/photogrammetry and a range of hydrological restoration plans for drained, cutover, afforested and eroded blanket bog and raised bog sites. As the plans will be used to inform future funding bids for the delivery of peatland restoration works,

they will include a detailed specification of works, cost range estimates and suggested monitoring protocols to measure improvements in hydrological functionality. The plans will draw on best practice and include prioritisation of works per site in terms of cost/benefit and potential for restoration success. This information will allow proposed restoration works to be prioritised and tailored to fit future funding budgets as necessary. The objective is to have a restoration works specification of sufficient detail to allow Ulster Wildlife to create a future tender documents for the delivery of the works.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

End date

28 February 2023

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Eastern Mourne

Lot No

2

II.2.2) Additional CPV code(s)

- 71000000 - Architectural, construction, engineering and inspection services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Eastern Mourne SAC, Co Down, Northern Ireland

II.2.4) Description of the procurement

Ulster Wildlife are seeking to appoint a qualified and experienced provider to deliver remote sensing LiDAR/photogrammetry and a range of hydrological restoration plans for drained, cutover, afforested and eroded blanket bog and raised bog sites.
