The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information

VI.3) Additional information

The Department for Energy Security and Net Zero invites suggestions and feedback from the market on the scope of the Energy & Net Zero Framework including its lots and structure.

The Department will be running supplier engagement events, consisting of virtual sessions. To receive details of forthcoming events, please email enzps@energysecurity.gov.uk.

Presentations will be made available after the session(s).

The Department for Energy Security and Net Zero uses the Jaggaer eSourcing Portal as its eSourcing tool. Jaggaer will be used for this competition. To register as a supplier, please visit <https://beisgroup.ukp.app.jaggaer.com/> and follow the instructions to register as a supplier.

Please note that, to register, you must have a valid DUNS number (as provided by Dun and Bradstreet) for the organisation which you are registering, who will be entering into a contract if invited to do so.

Services will be delivered primarily within the United Kingdom, with some limited requirements overseas.

The value in II.1.5 is an indicative value over the lifetime of the framework (4 years).

The Cyber Essentials scheme is mandatory for Central Government Contracts which involve handling personal information and providing certain ICT products and services. The Government is taking steps to further reduce the levels of cyber risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of control which, when properly implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet.

To participate in this procurement, bidders will be required to demonstrate that they are Cyber Essentials compliant for the services under and in connection with the procurement.

The services that arise from this from this framework will involve the supplier holding material that has been assigned a protective marking under the Government Security Classifications scheme (April 2014) of OFFICIAL/SENSITIVE. Bidders will be required to implement their solution in accordance with the Framework Agreement Schedule, "Security Requirement and Plan", to meet Framework Agreement requirements. This will be released at the ITT stage.
