II.2) Total final value of contract(s)

II.2.1) Total final value of contract(s)

Value: £1,624,189

Excluding VAT

Section IV: Procedure

Type of procedure

Negotiated without publication of a contract notice

Justification for the award of the contract without prior publication of a contract notice

1) Justification for the choice of the negotiated procedure without prior publication of a contract notice

The works/goods/services can be provided only by a particular tenderer for reasons that

are:

technical

1) The Air Platform Systems (APS) Delivery Team, part of the UK Ministry of Defence ("MOD"), intends to place a three (3) year contract with two (2) one (1) year options with Thales UK for the through life support of Vicon 455 Countermeasure Dispensing Systems (CMDS) that are fitted to Wildcat, Shadow and Defender aircraft.

2) It is considered that this Contract can be placed using the Negotiated Procedure Without Prior Publication of a Contract Notice pursuant to Regulation 16 (1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011 for technical reasons.

3) The continued support required by MOD to existing in-service equipment must be contracted directly with Thales UK, procuring alternative equipment or contracting support from a supplier other than Thales is not possible for the following reasons:

a) Interoperability issues, necessitating the substantial re-design and structural modification of complex military equipment, including the installation of specific wiring, to the existing UK aircraft fleets fitted with Vicon 455 CMDS to enable embodiment of alternative CMDS equipment;

b) Incompatibility between the existing in-service systems/equipment and the alternative CMDS equipment resulting in further complex design and modification [which, for operational reasons, would be so time consuming as to potentially jeopardise the safe functioning of the Armed Forces];

c) The need to retrain technicians and system experts which would lead to a gap in knowledge that would have a significant risk and impact on current operations and ability for the in-service aircraft to fulfil their operational commitment.

Section V: Award of contract

Contract No

701264395

V.1) Date of contract award decision

12 November 2020

V.2) Information about offers

Number of offers received

1

Number of offers received by electronic means

1

V.3) Name and address of economic operator in favour of whom the contract award decision has been taken

Thales UK Limited

Reading

Country
