II.2.4) Description of the procurement

The KHP II programme aims to strengthen health systems by scaling up universal health coverage, promoting research for evidence and institutionalizing health policies in Kenya. Since devolution of health services in 2013, health programmes are implemented at both the national level and at the county level. The UK's investment of over £100m to improving universal access to health and the substantial resources in terms of technical services provided by GoK has helped scale up services across Kenya. This phase (2) is designed to transition to full GoK ownership and financing.

II.2.14) Additional information
