MFA for Transport and Land-Use Modelling, Appraisal and Transport Planning Services  
(2021-2024/5)

Reference number

TS/TSA/SER/2021/01

### **II.1.2) Main CPV code**

- 71311200 - Transport systems consultancy services

### **II.1.3) Type of contract**

Services

### **II.1.4) Short description**

Transport Scotland on behalf of the Scottish Ministers has identified an on-going need for the services of experienced consultants to carry

out services in connection with Transport and Land-Use Modelling and Transport Appraisal and Planning. Transport Scotland, on behalf of

the Scottish Ministers, wishes to progress a procurement competition for a Multi-Supplier Framework Agreement. The Framework

Agreement, to cover 3 years with a 1-year extension option, will be available for use by Regional Transport Partnerships and other Scottish

Government Directorates. The framework will consist of the following Lots:

- Lot 1 is for Development, Update and Application of Transport Models;
- Lot 2 is for Advice on the Case for Transport Investment;
- Lot 3 is for Development, Update and Application of Economic and Land-Use Models; and
- Lot 4 is for Transport Planning Advice.

### **II.1.6) Information about lots**

This contract is divided into lots: Yes

### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £10,350,000

## **II.2) Description**

### **II.2.1) Title**

Development, Update and Application of Transport Models

Lot No

1

### **II.2.2) Additional CPV code(s)**

- 71311210 - Highways consultancy services
- 71318000 - Advisory and consultative engineering services
- 71621000 - Technical analysis or consultancy services
- 71311000 - Civil engineering consultancy services
- 71311230 - Railway engineering services
- 79310000 - Market research services

### **II.2.3) Place of performance**

NUTS codes

- UKM - Scotland

### **II.2.4) Description of the procurement**

The scope of Lot 1 Services is centred around general updates to the Transport Model for Scotland (TMfS) and keeping future year scenarios up to date. This will include providing advice, improving and maintaining a new suite of scenario-based transport models. The Services will also include adding and improving functionality to new or existing models, including TMfS, second-tier models (regional models) and third-tier models (local area models). During the framework period, a National Accessibility Model will be adopted into LATIS Lot 1 and will be part of the development and maintenance requirement. It should be noted that most of the current LATIS models have some degree of interface to the national Transport, Economic and Land-use Model of Scotland (TELMoS). All Lot 1 models exist to support the Scottish Ministers in the testing and appraisal of projects and policies and while these have traditionally focussed on road and rail projects, the modelling framework is

expanding to address a wider range of policies, scenarios and metrics, reflecting the outcomes sought by the second National Transport Strategy (NTS2).

### **II.2.5) Award criteria**

Quality criterion - Name: Assessment will be based on tenderer's approach to execution and delivery of services; providing suitable staff; management of resources and risks; innovation; adding value and community benefits. / Weighting: 70

Price - Weighting: 30

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## **II.2) Description**

### **II.2.1) Title**

Development, Update and Application of Economic and Land-Use Models

Lot No

3

### **II.2.2) Additional CPV code(s)**

- 71311210 - Highways consultancy services
- 71318000 - Advisory and consultative engineering services
- 71621000 - Technical analysis or consultancy services
- 71311000 - Civil engineering consultancy services
- 71311230 - Railway engineering services
- 79310000 - Market research services

### **II.2.3) Place of performance**

NUTS codes

- UKM - Scotland

### **II.2.4) Description of the procurement**

The Services under Lot 3 will primarily relate to the development, update and application of the Transport, Economic and Land-Use Model of Scotland (TELMoS) to facilitate the output of strategic transport and land-use planning advice for authorities and third parties. TELMoS will have many interactions with modelling and policy appraisal work undertaken within the other three Lots and an understanding of their requirements is essential. The delivery of Lot 3 Services will require an active and collaborative role to be undertaken in the model audit process on TELMoS, and also on audits of other LATIS models where there is functional interaction with TELMoS. All modelling work undertaken in Lot 3 is to support the Scottish Ministers in the testing and appraisal of projects and policies and while these have traditionally focussed on road and rail projects, the modelling framework is expanding to address a wider range of policies, scenarios and metrics, reflecting the outcomes sought by the second National Transport Strategy (NTS2).

### **II.2.5) Award criteria**

Quality criterion - Name: Assessment will be based on tenderer's approach to execution and delivery of services; providing suitable staff; management of resources and risks; innovation; adding value and community benefits. / Weighting: 70

Price - Weighting: 30
