The Contracting Authority does not intend to include a sub-contract clause as part of community benefits (as per Section 25 of the Procurement Reform (Scotland) Act 2014) in this contract for the following reason:

The estimated framework value will be split across all Lots with each contract awarded having different values. Contracts awarded will also be spread across multiple Contractors. Given this, a sub-contract clause is unsuitable for the framework.

Community benefits are included in this requirement. For more information see:

<https://www.gov.scot/policies/public-sector-procurement/community-benefits-in-procurement/>

A summary of the expected community benefits has been provided as follows:
