Environment

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Provision of Ground Investigation Survey for Little Hulton Solar Farm

Reference number

DN639187

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

The survey will inform the project to construct a 3MW solar farm in Little Hulton. The project is part of the Unlocking Clean Energy Greater Manchester (UCEGM) Programme and is receiving funding from the England European Regional Development Fund (ERDF) as part of the European Structural and Investment Funds Growth Programme 2014-2020. The Department for Levelling Up, Housing and Communities is the Managing Authority for European Regional Development Fund. Established by the European Union, the European Regional Development Fund helps local areas stimulate their economic development by investing in projects which will support innovation, businesses, create jobs and local community regenerations. For more information visit <https://www.gov.uk/european-growth-funding>.

The contractor is to undertake a Phase II interpretative ground assessment for the site at Kenyon Way, Little Hulton, Salford. The Phase II report is to assess the ground based geotechnical and environmental risks, constraints and liabilities associated with the proposed development of the site which is to be redeveloped as a ground mounted solar photovoltaic (PV) facility. The Phase II report is required to support contaminated land planning conditions, allow the design of economic foundation solutions and determine whether the local ground is suitable for the installation of the ground mounted solar photovoltaic (PV) facility.

The site is approximately 3.4 ha in size. The proposed solar PV facility development will include equipment that will be generally low lying (approx. height 2.4m) and capable of screening from surrounding vantage points. There will be a galvanised security fence of

approx. 2.4m height around the site and there will be a proposed substation situated to the north west of the site. HV cables and other associated equipment cables will run beneath the site. Refer to Phase 1 Geotechnical and Geo-Environmental Desk Study Report prepared by AECOM Limited for further information (report revision 0 dated 28 February 2020).

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45000000 - Construction work

II.2.3) Place of performance

NUTS codes

- UKD3 - Greater Manchester

II.2.4) Description of the procurement

This ground investigation is ERDF funded advertised on The Chest as an open tender at www.the-chest.org.uk. Closing time for bids is Monday 25th November at 2pm.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £35,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in days

90

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

Unlocking Clean Energy Greater Manchester

II.2.14) Additional information
