Synergi Pipeline Application

NORTHERN GAS NETWORKS LIMITED

F06: Contract award notice – utilities

Notice identifier: 2021/S 000-030175

Procurement identifier (OCID): ocds-h6vhtk-02fd55

Published 6 December 2021, 10:18am

Section I: Contracting entity

I.1) Name and addresses

NORTHERN GAS NETWORKS LIMITED

1100 Century Way Thorpe Park

LEEDS

LS158TU

Contact

Maija Narimanidze

Email

MNarimanidze@northerngas.co.uk

Telephone

+44 7814042782

Country

United Kingdom

NUTS code

UKE42 - Leeds

Internet address(es)

Main address

<https://www.northerngasnetworks.co.uk/>

I.6) Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Synergi Pipeline Application

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

NGN currently uses DNV applications CP Logger & CP Uptime to enable field users to record Cathodic Protection readings on mobile handheld field devices against our assets and provide an inspection management tool.

These applications are part of the Agreement for the Provision of Gas Operational Support Decision Making Apps, which is due to expire in July 2022. These applications are end of life and are unsupported due to old technology, which creates a number of security risks. DNV have developed a new application called Synergi Pipeline which provides the same functionality but resides on a new technology platform. A project proposal has been received by NGN for DNV to support testing and data migration activities before the

system goes live. Justification for single source is based on absence of competition due to technical reasons as our current applications were developed by DNV and they are the only supplier who can replace them. NGN carried out workshops with an alternative supplier but they could not meet our requirements.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £151,044

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKE42 - Leeds

II.2.4) Description of the procurement

NGN currently uses DNV applications CP Logger & CP Uptime to enable field users to record Cathodic Protection readings on mobile handheld field devices against our assets and provide an inspection management tool.

These applications are part of the Agreement for the Provision of Gas Operational Support Decision Making Apps, which is due to expire in July 2022. These applications are end of life and are unsupported due to old technology, which creates a number of security risks. DNV have developed a new application called Synergi Pipeline which provides the same functionality but resides on a new technology platform. A project proposal has been received by NGN for DNV to support testing and data migration activities before the system goes live.
